

Webinars

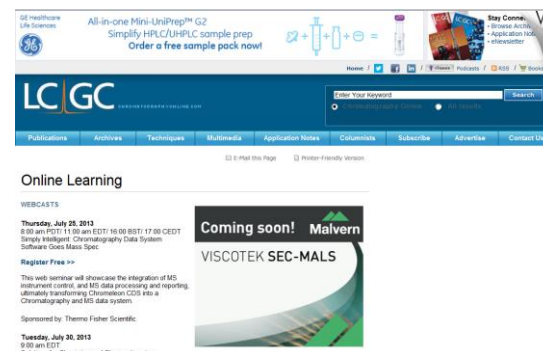

Combining the immediacy and the impact of cutting-edge, interactive, web technologies, *LCGC's* quality **Webcast program** strategically showcases your company as a significant industry leader.

Exclusively Sponsored Webcasts

LCGC's webcast program is a moderated online “panel” discussion conducted as a live event or pre-recorded for on-demand playback (or both) through an interface that can display slides and audio; streaming video, and an array of interactive features like polling, chat, and much more. Our webcast platform does not require any software downloads that frequently block access to these popular broadcasts.

Educational Webcast Series

LCGC's educational webcast series brings viewers the latest information on all of the hottest separation techniques and application areas with the objective editorial voice viewers have come to expect from *LCGC*. Utilizing our lineup of well known, objective industry experts, they deliver practical scientific information in a viewer-friendly format.
