

LOSE LIPIDS SAVE ANALYTES

WITH AGILENT ENHANCED MATRIX REMOVAL—LIPID

Confidence means not having to choose between lipid removal and analyte recovery. Agilent Enhanced Matrix Removal—Lipid is a unique sorbent that selectively removes lipids in complex matrices. Now, you can remove lipids without losing your analytes.

What's more, EMR—Lipid fits into your QuEChERS workflow. The advanced sorbent targets lipids to maximize matrix removal in fatty samples—without sacrificing analyte recovery. The single sorbent can simplify workflows, and provide the cleanest sample profiles from complex matrices.

Efficient removal of lipids is key to improving chromatographic and system performance for the best quality data. Learn how with Enhanced Matrix Removal—Lipid from Agilent.

Reduce Sample Hold-up Volume in Syringe Filters

Download the new **Pall Laboratory Application Note for Facilitating Filtration of Small Volumes: HPLC and UHPLC Sample Preparation**

The app note describes the phenomena of hold-up volume found in the syringe filter and the expected sample results when following the prescribed method.

- Reduce hold-up volume
- Increase sample recovery
- Improve sample results

Download now.

We have over 60 sample prep specialists throughout the United States.

We are where you are.

Many companies say they have great customer service, at CEM we prove it.

18 Knowledgeable Sales People

With an average of 15 years with CEM.

25 Experienced Field Technicians

Close by, to keep you up and running.

17 Expert Chemists

To help with custom or advanced applications.

MODERN SOXHLET EXTRACTION

Automate Your Handheld Pipetting Safer, Faster and More Accurate Diluting and Dispensing

Touchscreen technology

Lightweight hand probe

Increase efficiency and consistency while reducing cost and wasted buffer with the Microlab® 600. With its simple touchscreen interface, built-in wizards and custom method tool, it helps every laboratory work smarter. The free compliance software package features enhanced security options that adhere to 21 CFR Part 11 and FDA GMP/GLP requirements.

For more information on how the Microlab 600 benefits your lab, visit www.ham-info.com/1048

SOLID-LIQUID EXTRACTION

YOUR GUIDE FOR Environmental Sampling and Analysis

Backed by a long history of supporting environmental labs, Restek's high-performance chromatography supplies and world-class technical service equip you to achieve:

- Faster throughput and lower cost per sample.
- Accurate, reliable, and legally defensible data.
- Hassle-free compliance with method requirements.

Visit us at www.restek.com/enviro

Restek[®] products come with an unbeatable guarantee.

That is Restek[®] Pure Satisfaction.
