

# **Poo on the Red Carpet: Common Landmines in Great Practices**

**Andrew Roark, DVM  
Green Valley Animal Hospital  
Ijamsville, MD**

No practice is perfect, no matter how good it looks from the outside. In this interactive session, we will discuss the most common problems that employees face inside even the taj mahals of medicine. We will also discuss setting personal boundaries for work-life balance, keeping a clear perspective on the benefits of staying in and departing a practice, and how to drive change when you are not the boss/owner in one of these practices.
