

What doctors wish their patients knew about **COVID-19**

Special Edition | Moving Medicine

Staying up-to-date on advice to give patients can be a challenge. Throughout the pandemic, the AMA has been a trusted source for clear, evidence-based COVID-19 guidance.

“What doctors wish patients knew about COVID-19,” a special edition of AMA Moving Medicine Magazine, has the facts you need to advise patients on daily life, safety and health care during the COVID-19 pandemic.

Get insights from fellow physicians on:

- How to talk to patients about vaccines
- Questions about mask-wearing, physical distancing and social gatherings
- “Coronasomnia,” COVID-19 fatigue and other pandemic side-effects
