

Dedicated to improving quality of life through life sciences communications, education and research.

As the largest privately held medical and life sciences media company in the United States, MJH Life Sciences™ provides unparalleled reach to key decision-makers from all facets of the life sciences industry. Our multichannel platform extends to more than 3.5 million within the health care and science industries across 60+ brands, delivering the information that matters most, when and where they need it. We are committed to meeting the needs of our audience and our partners with innovative solutions that allow us to adapt and pivot quickly during times of rapid change.

Partner with us to stay connected with your audience, no matter the circumstances.

Our Brand

Now in our 38th year, *Spectroscopy*® provides peer-reviewed articles, trusted advice from expert columnists and explanations of the latest developments to facilitate the advancement of spectroscopy as an essential analytical tool across a variety of applications and fields. Academicians, laboratory scientists, technicians and laboratory managers are provided with technology updates, best practices and practical advice for improved proficiency and competitive advantage in the spectroscopic workplace. *Spectroscopy* has a circulation of 24,965 audited readers,* global web reach through our online publishing, and is indexed in the Web of Science, Journal Citation Reports and EBSCOhost. Articles in *Spectroscopy* reach a large and diverse scientific readership.

The Pillars of Our Coverage

In *Spectroscopy*, we cover a range of analytical spectroscopy techniques and applications, to address the information needs of our diverse audience. For our print issues, we have distilled these down to six main pillars:

Raman: All types of Raman spectroscopy, including developments in techniques such as surface-enhanced Raman spectroscopy (SERS) and tip-enhanced Raman spectroscopy (TERS).

IR: From near-infrared (NIR) through mid-IR/Fourier transform IR, to terahertz.

ICP: Including inductively coupled plasma–optical emission spectroscopy (ICP), ICP–mass spectrometry (ICP-MS), and laser-ablation ICP-MS (LA-ICP-MS).

Applications: Addressing the use of analytical spectroscopy in fields such as pharmaceutical analysis, environmental analysis, polymer analysis, food analysis, and more.

Theory & Fundamentals: Discussions of how techniques work, from tutorials to cutting-edge research.

Technique Focus: Covering the three main techniques already mentioned as well as others such as X-ray techniques, laser-induced breakdown spectroscopy (LIBS), fluorescence, and more.

*AAM audit, December 2021

What do you consider Spectroscopy's most unique attribute or feature? Source: August 2022 Readership Survey

Good articles at a level I can understand even if it isn't a technique I am expert at.

Delivery of relevant content and what is new and cutting edge.

It presents a concise overview of new and future trends in science.

The tutorials and columns. Those are gems and provide a basis of content that can be used to explain concepts to others.

Covers a wide variety of applications of spectroscopy and approaches from around the world.

Specificity of products, while serving diverse industries.

Broad and deep coverage of all pertinent aspects of spectroscopy applications, methods and instrumentation.

Latest products from vendors / manufacturers

With their unparalleled knowledge and technical expertise in the field of analytical spectroscopy, our well-known and highly respected columnists share insights, provide practical advice, and keep readers up to date on the latest methods and techniques.

Molecular Spectroscopy Workbench

By Fran Adar

Fran Adar explains fundamentals of molecular spectroscopy techniques, with a focus on Raman spectroscopy, and discuss its application to varied types of analysis, such as pharmaceuticals, polymers, biomedical samples and more.

Focus on Quality

By R.D. McDowall

Bob McDowall, one of the foremost authorities on data handling, data integrity, software, and validation in the analytical laboratory, provides advice and a clear understanding of regulatory requirements related to obtaining, handling, and reporting quality laboratory data. A must-read for spectroscopists in pharmaceutical, environmental or other regulated laboratories.

Chemometrics in Spectroscopy

By Howard Mark and Jerome Workman Jr.

For more than three decades, Howard Mark and Jerome Workman Jr. have been explaining the principles of applied chemometrics and addressing important topics in this area, both resolved and unresolved.

Atomic Perspectives

By Robert Thomas

Rob Thomas has worked in the field of atomic spectroscopy and trace elemental analysis for more than 40 years, including 25 years with an analytical instrumentation company. Here, he provides tutorials and updates on new analytical atomic spectroscopy techniques and their application in a broad range of fields.

IR Spectral Interpretation

By Brian C. Smith

Interpreting infrared (IR) spectra using spectral libraries is not as easy as it sounds. In this column, Brian C. Smith guides analysts through the nuances of spectral interpretation and provides advice on how to avoid the pitfalls. He also gives readers a chance to test their new skills through a quiz in each installment, revealing and explaining the correct answers in the next issue.

*AAM Audit, December 2021

As filed with Alliance for Audited Media, subject to audit

2023 Editorial Calendar

January

Topics: Raman, IR, ICP, Lasers & Optics, Components

Columns: IR Spectral Interpretation, Lasers & Optics Interface

Application Note Focus: ICP-OES and ICP-MS

Whitepaper Alert: Components

Bonus Distribution: SPIE Photonics West, Winter Conference on Plasma Spectrochemistry

February

Topics: Raman, IR, ICP, Annual Pittcon Issue

Columns: Molecular Spectroscopy Workbench, Chemometrics in Spectroscopy

Supplement: Application Notebook

Supplement: Spectroscopy in Pharmaceutical Analysis

Virtual Symposium: Atomic Spectroscopy in Practice

Bonus Distribution: Pittcon

March

Topics: Raman, IR, ICP, Salary Survey Issue

Columns: Atomic Perspectives, IR Spectral Interpretation

Special Coverage: Salary & Employment Survey

Application Note Focus: Raman

Bonus Distribution: SPIE DCS, OPIC,ACHEMA

April

Topics: Raman, IR, ICP, Lasers & Optics, Ad Performance Study Issue

Columns: Focus on Quality, Lasers & Optics Interface

Application Note Focus: Pharmaceutical & Biopharmaceutical Analysis

Bonus Distribution: MRS Spring, CLEO, INTERPHEX, Laser World of Photonics

May

Topics: Raman, IR, ICP, Annual New Product Review

Columns: Atomic Perspectives, IR Spectral Interpretation

Special Coverage: Annual New Product Review

Application Note Focus: IR & Fluorescence

Virtual Symposium: Tech Innovations and Applications

Bonus Distribution: ASMS

June

Topics: Raman, IR, ICP, Vendor Perspectives

Columns: Molecular Spectroscopy Workbench, Chemometrics in Spectroscopy

Supplement: Raman Spectroscopy

Special Advertiser Opportunity: Vendor Perspectives

Bonus Distribution: IFT, NACRW

2023 Editorial Calendar

July

Topics: XRF & XRD, Raman, IR, ICP

Columns: Atomic Perspectives, IR Spectral Interpretation

Virtual Symposium: 4th Annual Molecular Spectroscopy in Practice

Application Note Focus: X-ray techniques

Bonus Distribution: IDRC, ICORS, Denver X-Ray Conference, SPIE Optics & Photonics

August

Topics: The Annual Resource Issue: Tutorials, Directory, Tips & Tricks, Application Notes, Product Profiles

Supplement: IR Spectroscopy

Whitepaper Alert: Components

Bonus Distribution: All conferences from August 2023–August 2024

September

Topics: Raman, IR, ICP

Columns: Focus on Quality, IR Spectral Interpretation

Supplement: ICP- OES and ICP-MS Techniques

Application Note Focus: Raman

Bonus Distribution: Society of Forensic Toxicologists, Gulf Coast Conference, SciX

October

Topics: Raman, IR, ICP, Lasers & Optics

Columns: Atomic Perspectives, Chemometrics in Spectroscopy, Lasers & Optics Interface

Application Note Focus: Industrial Analysis

Bonus Distribution: AAPS, SETAC North America

November/December

Topics: Raman, IR, ICP

Columns: Focus on Quality, IR Spectral Interpretation, Molecular Spectroscopy Workbench

Supplement: Spectroscopy Outside the Laboratory

Application Note Focus: ICP-OES and ICP-MS

Virtual Symposium: Spectroscopy in Pharmaceutical Analysis

Bonus Distribution: Eastern Analytical Symposium (EAS), MRS Fall

Virtual Events

As an alternative to trade shows, conferences and face-to-face events, you can deliver your message through our virtual communication platforms that include dedicated traffic drivers, lead generation and content engagement. Through our experience, expertise and state-of-the-art in-house studios, the transition from in-person to online is seamless and timely.

Virtual Conferences and Symposiums

Virtual conferences offer an at-home alternative to in-person events, bringing critical information directly to the screens of industry professionals — without cutting corners on attendee experience. The virtual learning environment features many of the same amenities of a live trade show or meeting, including a lobby, auditorium, exhibit hall, networking lounge and resource center.

Virtual Thought Leadership Interviews/ Roundtable

Using advanced video conference technology, our internal studios team will coordinate a remote interview conducted by our editors and your KOLs that provides insight and digs into the key issues affecting our industry. Each video includes questions of your choice and promotion to our audience.

Virtual Presentation Showcase

Is your company missing out on delivering a presentation at an industry event? Reach the same audience by delivering the presentation virtually through our webcast tool. Our presentation showcase program is composed of a series of short, topic-driven

videos that combine our editor's interview with your speaker and outtakes from their presentation. Each package is promoted to your target audience — extending reach, expanding access and prolonging engagement well after the event has ended.

Virtual Press Conference

Spectroscopy will give your company the opportunity to deliver the press conferences your company planned for this year's industry events to a targeted audience. Feature topics such as your company's new product launches, M&A activity, restructuring or market trends. Each program includes promotion to our audience.

2023 Virtual Symposia

Advances in Atomic Spectroscopy

February 2023

We follow up from last year's hit virtual symposium on advances in atomic spectroscopy with more great talks this year, from leading scientists advancing both theory and practical applications of inductively coupled plasma–optical emission spectroscopy (ICP-OES), ICP–mass spectrometry (ICP-MS), laser-induced breakdown spectroscopy (LIBS), and sample preparation for atomic analyses.

Tech Innovations and Applications

May 2023

We highlight what's new and exciting in analytical spectroscopy technology and instrumentation, addressing what the developments mean for improved performance, practical implementation, and expanded applications.

4th Annual Molecular Spectroscopy in Practice

July 2023

Our annual molecular spectroscopy virtual symposium provides essential information for molecular spectroscopists conducting research in or applying Raman and infrared (IR) spectroscopy techniques. It's a can't miss event.

Spectroscopy in Pharmaceutical Analysis

November 2023

As a follow up to our previous popular events on spectroscopy in biopharmaceutical and pharmaceutical analysis, we present this in-depth look at the use of spectroscopic techniques in small-molecule pharmaceutical analysis, from R&D through quality control.

Video Programs and Live Events

Video Programs

Extend your ROI at industry events with video content that can strengthen your brand reach post-show with editorialized videos by *Spectroscopy* and audience engagement with the *Spectroscopy* community.

Presentation Showcase

Our Presentation Showcase program is composed of a series of short, topic-driven videos that combine our editor's interview with your speaker and outtakes from their presentation. Each package is promoted to your target audience – extending reach, expanding access and prolonging engagement well after the event has ended.

Thought Leadership Interview

Our internal studios team will coordinate an interview conducted by our editors and your KOLs that provides insight and digs into the key issues affecting our industry. Each video includes questions of your choice and promotion to our audience.

Exhibit Booth Interview

Extend your ROI at industry trade shows with custom video content that can strengthen your brand reach post-show. We'll conduct an interview at your booth and edit it into a three to five minute video with promotions to the *Spectroscopy* community.

Live Events

Partner with *Spectroscopy* to create your custom live events. Our editorial and events teams work with you to develop and execute best-in-class programs that meet your business and educational goals. What makes *Spectroscopy* your partner of choice?

Content Development:

The *Spectroscopy* team works with your team to produce a program based on your needs.

KOL Recruitment:

We find the speakers that will attract your target attendees at the event as well as post-event.

Attendee Recruitment:

Using our extensive databases and relationships with our audiences, *Spectroscopy* will find and attract the people you want to attend your live event.

Post-Event Content:

Our team will create video, audio and written content based on the program. And not only do we create the content, we also provide marketing programs to get the content out to both attendees and non-attendees.

Turnkey Logistics:

Besides the expertise of *Spectroscopy*, you also get the meeting planning services of MJH Live Events to create a turnkey solution for your event.

Multi-Media Marketing Solutions

Reach the entire market using *Spectroscopy's* integrated marketing approach.

Native Advertising

This program gives you the opportunity to inject thought leadership, insight and brand awareness within the context of *Spectroscopy's* trusted editorial communities. You will receive a choice of topics and in article links to your gated content are served within relevant editorial content.

Sponsored Survey Package

Spectroscopy's sponsored web-based surveys can be used to better understand your client's business issues. These survey projects include a written report of findings and can provide individual data on each survey respondent's habits and preferences.

[Visit website »](#)

Use our unique web video program to show and tell how your products and services solve problems for spectroscopy-related applications. Viewers who find your web video useful can forward it to a friend, enabling your message to be easily shared with other prospective buyers and influencers.

[Visit SpecTube »](#)

Email Solutions

Our highly targeted, data-driven database contains decision-makers in the scientific industry you can use to reach your potential buyers.

[Click for sample »](#)

Global Digital Edition

Spectroscopy's Global Digital Edition provides practitioners of spectroscopic techniques from around the world access to the same objective, peer-reviewed, nuts-and-bolts technical information found in the monthly print edition.

[Click for sample »](#)

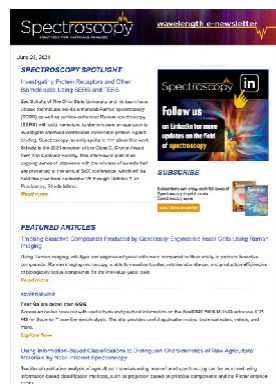

E-newsletters

The Wavelength

Spectroscopy's twice-monthly e-newsletter, exposing readers to new tools, applications, feature articles and other industry-related developments pertinent to their professional work. Each month, *The Wavelength* focuses one issue on atomic techniques and the other on molecular.

[View sample »](#)

Issue Alert

Spectroscopy's monthly Issue Alert is a preview to the monthly print/digital edition. Included in the Issue Alert are current feature articles and columns.

[View sample »](#)

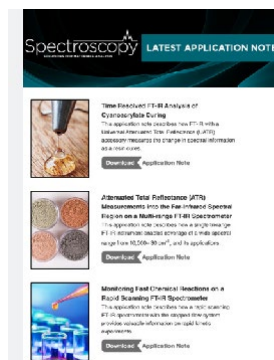

e-Application Note Alert

Spectroscopy's compilation of application notes sent monthly to thousands of qualified scientific subscribers. Each application note comes with a lead generation form that interested readers fill out with full contact information, and we supply you with the leads.

[View sample »](#)

Spectroscopy

Current Trends in Mass Spectrometry

Practical, technical and tutorial information about mass spectrometry and its ability to solve complex analytical problems in a range of industrial and research applications.

[View sample »](#)

Content Marketing

Custom Content Creation

Our dedicated content editor will develop and write thought-provoking, insightful content about your products and services such as, but not limited to:

- White papers
- Webcast summaries
- Conference presentation overviews
- Case studies
- Technical articles
- Roundtable discussions
- Infographics
- Thought leadership interviews
- Digital primers
- Product profiles
- Market research reports
- New product write-ups

Sponsored eBooks

A sponsored custom eBook or eBook series on topic(s) of your choice or a collaborative topic in conjunction with *Spectroscopy's* editorial team. This program is designed to deliver high-quality leads.

[View sample »](#)

Lead Nurturing

Topic-driven programs that capture prospects and nurture them by deploying high-quality content via strategically timed communications. These programs are designed to deliver sales-ready leads.

Dedicated Dialogue

Spectroscopy will conduct an interview with an expert from your company (scientist, corporate manager, etc.). This interview will be marketed through a multimedia program that includes a podcast and a two-page article in an issue of *Spectroscopy*.

[View sample »](#)

Webcasts and Podcasts

Our educational webcasts are led by credible moderators and offer exclusive sponsorship to a qualified audience while embracing digital engagement.

Experience — More than 500 educational webcasts produced by MJH Life Sciences™ each year

Credibility — Spectroscopy has been in the field of spectroscopy for over 35 years

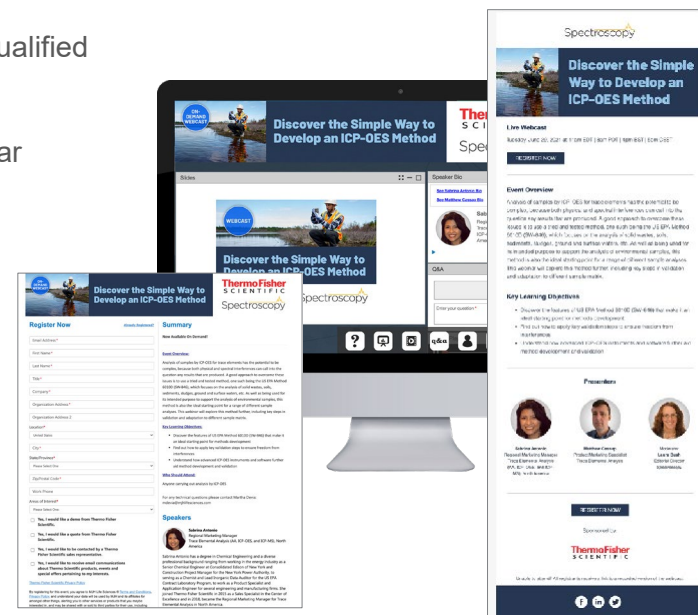

Talent — Respected speakers, moderators and Spectroscopy's Editorial Director, Laura Bush

Audience/Reach — Select from 700,000 qualified pharma/science professionals

Marketing & Promotion — Targeted audience development: print, digital and social media

Analytics — Comprehensive lead capture, lead nurturing and data reporting for every event

Turnkey — Full-service management, marketing, training, production and hosting

Enhanced Webcasts

Cross-platform solutions that can convert a stand-alone educational webcast into an integrated content program. We use social media, print and online marketing to amplify the content across the Spectroscopy community.

- Repurposes webcast content cross-platform
- Delivers the content across multiple channels
- Extends reach, duration and brand visibility
- Increases access and engagement

Podcasts

Podcast series regularly recorded by our editorial team that provides insights on news, new products, applications, and important trends in the industry.

Our staff works with you on episodic programming to attract the most relevant listener base and to demonstrate your connection or expertise with the topic.

- Segmented by category
- Highlights important editorial topics
- New topics monthly
- Special coverage of industry events

Industry Insights & Content Hub

Spectroscopy

Your opportunity to share a point of view

Industry Insights is a native marketing program that gives you the platform to introduce thought leadership and insights within the context of our trusted editorial. This is content marketing at its best with articles by your subject experts, integrated alongside valued content in *Spectroscopy*.

A native, branded-content opportunity

- Articles, press releases, videos, etc. are included within the digital content feed and/or the print edition of *Spectroscopy*
- An expandable offering from one article to a complete content center with your branding
- Featured on the spectroscopyonline.com home page as well as in appropriate topic areas
- An integrated promotional program provides significant exposure to our audience

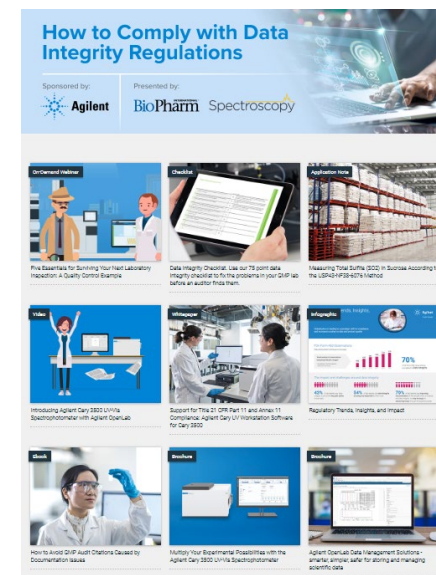

Showcase a key topic and promote your brand

Package your valuable content marketing assets into a user-friendly digital hub where users can self-educate. Driven by a multitouch marketing campaign and single-sign-on access to generate quality leads. The always-on nurturing lets prospects choose the time and place to engage – leading users to spend more time consuming your content.

A native branded-content opportunity

- End-to-end project management including setup of a branded environment, creative design of all materials, turnkey promotion and reporting
- Six to 12 related assets, including white papers, app notes, videos, webcasts, research and web links
- Hosted and promoted for three months
- Your assets are promoted to a relevant audience through a turnkey solution for content syndication and lead nurturing.

Need help developing content?

Our expert content marketing team can work with you to develop engaging content that resonates with your target audience

Digital Ad Requirements

- Digital data is required for all ad submissions.** Preferred format is PDF/X-1a. Note that a standard PDF is not a preferred format. Files should be a PDF/X-1a which is a PDF subset specific to printing. Publisher shall have no obligation or liability to advertiser of any kind (including, without limitation, the obligation to offer advertiser make goods or any other form of compensation) if an ad is supplied to publisher by advertiser in any format other than our preferred formats. Nonpreferred or nonacceptable formats will be charged a \$150 processing fee. All files should be built to exact ad space dimensions purchased.
- Publisher will not supply a faxed or soft proof for advertiser-supplied files.** Advertiser is solely responsible for preflighting and proofing all advertisements before submission to publisher. If publisher detects an error before going to press, publisher will make a reasonable effort to contact advertiser to give advertiser an opportunity to correct and resubmit advertiser's file before publication.
- Ad proofs:** To insure that advertiser's ad is reproduced correctly, a SWOP-certified color proof that has been made from the same file that advertiser supplies to publisher must be provided. publisher cannot provide advertiser any assurances regarding the accuracy of reproduction of any ad submitted without a SWOP proof. Publisher shall have no obligation or liability to advertiser of any kind (including, without limitation, the obligation to offer advertiser make goods or any other form of compensation) for any ad supplied to publisher by advertiser without a SWOP proof.

The text should mirror the words in the HTML and not include coding) Your suppression file: in excel (only if sending from your company name) » Subject line: (limit to under 50 characters/including spacing) » Test seed list: email address of those to receive the test to review » Final seed list: any additional email addresses that are not on the test list but need to receive the final deployment (up to 10)		
Timeline	» MJH Life Sciences™ will follow up with a proof of the e-blast at least one business day prior to the scheduled deployment to the test seed list » Please review the proof and reply back to the email with approval or changes marked in a PDF. If another proof is required, a revised test will be sent MJH Life Sciences™ will confirm that the e-blast is scheduled to deploy on the specified date » By the 15th of the following month, MJH Life Sciences™ will provide delivery metrics for all that deployed within the month		

General Notes

File weight calculation: All files for the ad (.html, .js, .css, images, etc.) must be included as part of the maximum file weight calculation for all file load limits. Shared libraries are also included as part of the file weight calculation unless otherwise exempted. File weights are calculated after files have been compressed into gzip format. You can use this site to check if your creative is within our specs guidelines <http://html5.iabtechlab.com/needauth?redir>.

Initial file load: Includes all assets and files necessary for completing first visual display of the ad.

Host-initiated subload: Where allowed, additional files may load one second after the browser domContentLoadedEventEnd event. The ad should be able to “listen” for the browser domContentLoadedEventEnd event before subsequent files beyond the initial max file size may be loaded.

User-initiated file size: Ads that allow additional file size for host-initiated subload also allows for unlimited file load after user-initiated interaction. User initiation is the willful act of a user to engage with an ad. Users may interact by clicking or tapping the ad.

Video Requirements

- File Format: H.264 (mp4)
- Audio Format: MP3 or ACC (Preferred).
- Aspect Ratio: 16:9 preferred, 4:3 accepted
- Frame Rate: 24 or 30
- Max File Size: 10MB
- Tags Accepted: VAST 2.0, VAST 3.0, or VPAID (VAST 2.0 will not be accepted for skippable ads). Must be SSL-Compliant.
- Video length: 15/30 sec

HTML5 Notes

HTML5 provides/introduces new options for developing ads. The IAB has developed “HTML5 for Digital Advertising” (<http://www.iab.com/html5>) to help ad designers provide ads in HTML5 unit that will perform more successfully across the display advertising ecosystem. Please review this document and adopt its recommendations to help improve HTML5 ad performance in the industry.

HTML5 Design Industry Standards

<http://www.iab.com/html5>

HTML5 Requirements for Google Ad Manager

<https://support.google.com/admanager/answer/7046799>

General Ad Requirements (apply to all display ads)

File Format - JPG, GIF, PNG, HTML5 (must be 3rd-party hosted)

Audio - Must be user-initiated. To allow for audio initiation in videos without player controls, a control may be included ofr user to initiate audio.

Expansion - Must be user-initiated by click and served through a 3rd Party tag.

Hotspot - Not to exceed 1/4 size of ad. Initiated when curser rests on hotspot for atleast 1 sec. Must NOT initiate audio

Defining ad space - Ad unit content must be clearly distinguishable from normal webpage content (ad unit must have clearly defined borders and not be confused with normal page content).

Max CPU - Ad not to exceed 30% CPU usage during host-initiated execution

Submission Lead Time - Minimum lead time for ad file submission is 5-7 business days before campaign start.

Max number of host-initiated file requests - Ad not to exceed 15 file requests during initial file load and host-initiated subload. Unlimited file requests allowed after user-interaction
