WELCOME TO SciX 2022

On behalf of the Federation of Analytical Chemistry and Spectroscopy Societies (FACSS), it is our pleasure to welcome you to SciX 2022. This year, we explore a new city for our conference, Covington, KY, a location with a strong local scientific and industrial community. The SciX organizing team has worked tremendously hard to offer what we know to be the favorite week of the year for many of us. With the dedicated support and experience of the FACSS Governing Board Chair, Mike Carrabba, Talley Management Group, and our Marketing Chair, Tina Gong, we present you an amazing journey through analytical chemistry and spectroscopy like no other, with a fresh design to make the trip even more enjoyable and rewarding.

Our Program Chair, Robert Lascola, assembled a scientific program highlighting the Analytical Chemistry of Space Exploration. Sunday's Keynote Lecture by Dr. Amanda Hendrix of the Planetary Science Institute is "The Future of Space Exploration: Earth-Based, Deep Space-Based, Robotic, and Human". She will share her view as a principal investigator of observing programs with the Hubble Telescope, a co-chair of the National Academy of Sciences Committee on Planetary Protection, and co-author of the book "Beyond Earth – Our Path to a New Home in the Planets". There are additional space-themed sessions in vibrational spectroscopy, LIBS, mass spectrometry, and electrophoresis, and a special session on Friday morning to close out the conference.

Programming on cutting-edge analytical science includes: numerous sessions on the interaction of artificial intelligence and machine learning with imaging, spectroscopy, and biomedical applications; an analytical imaging symposium supported by the NSF Chemical Measurements and Imaging Program; a symposium on coherent multidimensional spectroscopy that ties into the Lippincott Award symposium; sessions highlighting academic and industrial chemistry in the Ohio/Kentucky region; and sessions honoring Peter Griffiths and Stanley Crouch, among many, many others. Oral sessions begin on Sunday afternoon, providing non-stop scientific knowledge until Friday morning with more than 120 oral sessions, plus posters Sunday through Wednesday.

The fourteen FACSS member societies will delight us with plenary talks from their new awardees. Organized by Awards Chair Karen Faulds, this section will see its highlight with the FACSS Innovation Award finalist presentations on Thursday morning. This internationally recognized award is our recognition of work being done in analytical chemistry and its application to all aspects of measurement science. In keeping with tradition, this session stands alone to maximize the opportunity to see spectacular new work.

The scientific program would not be complete without continuous education provided by our member societies, industrial sponsors, and Workshops Chair, Annie Dowgiallo. Courses target career advice to technical skills and applications. It is not too late to register onsite! In this transformed economy, providing our attendees and societies members with new career opportunities is crucial. We have organized a Career Fair, under the supervision of Robert Chimenti, on Wednesday morning. We are excited to offer this service free to the community after more than two years of primarily virtual networking. We are also presenting several technical sessions on career development and guidance, as well as highlighting the research achievements of our student and early career attendees.

Exhibits Chair Scott Rudder has organized a stellar exhibits experience. The Tuesday Happy Hour is back, networking while overlooking the Ohio River and downtown Cincinnati. Wednesday afternoon is our Exhibits Only closing event: with no technical sessions, the floor should be packed for an exhibits send-off. That evening, a Pub Crawl will explore Covington's eclectic nightlife.

The culmination of our social program – the SciX Gala – is on a new day, Thursday evening. After a full week of Space Science, it will be time to beat back Space Invaders at the SciX Arcade! From console games like Pac Man, Galaga, and Daytona Racing to old favorites like air hockey and shuffleboard, get ready to have fun, cheer on your friends, and compete for prizes like never before at SciX. Don't forget to dress up as your favorite game-themed character. The night is yours to create new memories!

SciX 2022 is the "Right Size, Right Science, Right Conference", with an even more exciting feel. Organizers, professors, post-docs, students, and exhibitors, we make Analytical Chemistry stronger every year during this SciX week. Welcome to your conference!

We do not tolerate unprofessional behavior or harassment of conference participants in any form. Language or behavior that is offensive or unwelcoming to others is not appropriate at any FACSS-sponsored event. Disruptive or unprofessional behavior, including talking, use of cell phones, and unsanctioned photography/video/screen recording or any other form of digital capture is not permitted in any sessions or anywhere in a virtual conference interface. Conference participants violating these rules may be sanctioned or expelled from the conference without a refund at the discretion of the conference organizers.

General:

- An official name badge must be visible at all times.
- No smoking, including the use of e-cigarettes, in any conference areas.
- Participants at FACSS or SciX networking events where alcoholic beverages are served must drink responsibly.
- Participants must not be under the influence of illegal drugs or other unauthorized, mind-altering or intoxicating substances while attending FACSS or SciX events. This policy does not prohibit the possession and proper use of lawfully prescribed drugs taken in accordance with the prescription.
- No advertising materials or organized marketing efforts are permitted outside of the Exhibit Hall without the express authorization of the conference management, Exhibits Chair or Workshops Chair. Only official exhibitors may display in the Exhibit Hall. No instrument demonstrations or distribution of any type of literature outside the Exhibit Hall without the express authorization of the conference management, Exhibits Chair or Workshops Chair.
- In virtual settings where participants have a platform to be heard and/or seen by other attendees, advertising and organized marketing efforts are prohibited unless arranged and/or authorized by conference management, Exhibits Chair or Workshops Chair.
- No touching/opening/reverse engineering of exhibitor equipment without their express permission.
- No unauthorized removal of exhibitors' materials or promotional items from the exhibit hall.

While in oral or poster sessions and award ceremonies:

- All devices including cell phones must be silenced.
- Do not talk or otherwise interrupt the presenter.
- Do not take photographs or videos of PowerPoint presentations or posters, or use screen recording or any other form of digital capture.
- Do not distribute product literature or literature promoting other conferences.
- Do not demonstrate products (by presenters or attendees).
- Do not use powered or operational instruments.
- Do not use compressed gases or flammable/toxic chemicals.

Expected Behavior throughout the Conference:

- Respectfulness and consideration of others and of the facilities

Unacceptable Behavior:

- Physical or verbal abuse of anyone attending or involved with the conference
- Harassment, intimidation or discrimination in any form; Examples of harassment are provided below

Harassment includes, but is not limited to:

- Unwelcome or inappropriate verbal comments related to gender, gender identity and expression, sexual orientation, disability, physical appearance, race, age, or religion
- Sexual images in public spaces
- Deliberate intimidation, stalking, or following
- Unwelcome photography or recording
- Sustained disruption of talks or other events
- Inappropriate physical contact
- Unwelcome sexual attention
- Advocating for, or encouraging, any of the above behavior

Exhibitors, sponsor or vendor booths, or similar activities are also held to the community standards described in this Code of Conduct. In particular, exhibitors should not use sexualized images, activities, or other material.

Enforcement

Participants must follow this Code of Conduct at all physical and virtual conference venues and conference-related social activities. Participants asked to stop any behavior in violation of this Code of Conduct must comply immediately. If a participant engages in behavior in violation of this Code of Conduct, conference organizers retain the right to take any actions to keep the event a professional and welcoming environment for all participants. This includes warning the offender or expulsion of the offender from the conference without a refund. Conference organizers may take action to redress anything designed to, or with the clear impact of, disrupting an event or making the environment hostile for any participants.

Reporting

FACSS/SciX are actively engaging in developing guidance for leadership, volunteers and staff to help monitor for behavior in violation of this code of conduct and to intervene as appropriate. That said, there must also be a mechanism for attendees to report such behavior. If you experience or observe unprofessional conduct, harassment, or other Code of Conduct violations, please report it as soon as possible. Make a report during regular conference and event hours:

- In person: Contact a volunteer in t-shirt or leaders and staff with ribbons on badges.
- Via email: report@scixconference.org
- Voice or Text: +1 (856) 494-6418

To ensure your report is managed properly, volunteers and staff will alert the FACSS Governing Board Chair and the FACSS Account Executive (or their designees), who will arrange to receive the details of your report in a safe environment where you cannot be overheard. Once safe, you will be asked to state what happened. This can be upsetting, but will be handled as respectfully as possible, and you may bring someone to support you. You won't be asked to confront anyone, and no one will be told who you are. The FACSS/

SciX team can help you contact hotel/venue security, local law enforcement, or local support services; provide escorts; or otherwise assist you to feel safe for the duration of the conference. If you are not comfortable reporting, anonymous reporting is also possible. While this limits our ability to follow-up, we still encourage anonymous reporting over not reporting an issue at all.

Emergency Contacts

If you feel you are in danger, observe someone else or are yourself considering harm to yourself or someone else, or if it is after hours and you do not receive a response via one of the reporting mechanisms above, you should contact local law enforcement, hotel or event center security, local hotlines, or emergency services as appropriate. FACSS/SciX officers and staff are not available at all hours and are not equipped or trained to respond to emergencies or situations involving violence or other physical altercations.

FACSS AWARDS

FACSS THOMAS B. HIRSCHFELD SCHOLAR AWARD

The FACSS Thomas B. Hirschfeld Scholar Award recognizes students who best exemplify the extraordinary creativity of the award's namesake, and the recipients and their work will be seen as potentially defining the future practice of analytical chemistry. There are two recipients in 2022.

**Sayantan Mahapatra**

Sayantan Mahapatra is currently a Ph.D. candidate in Chemistry with a focus on single-molecule chemical analysis of surface structures at the University of Illinois Chicago.

**Anna Wójtowicz**

Anna Wójtowicz is a 4th-year Ph.D. Candidate at the Jagiellonian University in Kraków, Poland under the mentorship of Prof. R. Wietecha-Posłuszny.

FACSS STUDENT AWARD

The prestigious FACSS Student Award is given to the student who has furthered the state-of-the-art in their chosen field(s) and in so doing, advanced the understanding of important scientific or societal questions. The recipient will have a strong research record and be identifiable as an emerging leader in analytical chemistry.

**Alexis Weber**

Alexis Weber is a 3rd year Ph.D. Candidate in Dr. Igor Lednev's lab in the Department of Chemistry at the University at Albany, SUNY.

FACSS STUDENT AND TOMAS HIRSCHFELD SCHOLAR AWARDS CALL FOR 2023 APPLICATIONS

FACSS is proud to support the development of the next generation of leaders in analytical science. Pre-doctoral students presenting at the conference are encouraged to submit applications for the FACSS Student Award and the Tomas Hirschfeld Scholar Award. Both awards recognize research excellence but highlight the different ways that this may be achieved. Recipients receive complimentary registration and financial support to attend the SciX conference.

Look for information online in January 2023 at scixconference.org. To be considered for either award, students must submit an abstract for oral presentation at SciX (submission opens later winter/early spring 2023), then submit the following as a single PDF file:

- The application form (check in early 2023 for next year's application form)
- Two letters of nomination, including one by the student's mentor
- A copy of the candidate's résumé
- A copy of the candidate's graduate transcript
- Copies of reprints and/or preprints of research accomplished

FACSS INNOVATION AWARD

The FACSS Innovation Award is given to the most innovative and outstanding new research advancements debuted orally at the SciX Conference. All program areas are included. Only research findings presented for the first time in the public domain qualify for entry. Work based on submitted papers not yet published electronically or in print at the time of abstract submission also qualifies. All attendees are eligible for the award irrespective of educational level or professional vocation. Papers submitted for SciX will be considered for these awards – authors indicate during the submission process that they wish to be considered.
